

OM MISHRA

New Delhi, 110044 | (91) 99710-50641 | contact@om-mishra.com | linkedin.com/in/om-mishra7 | github.com/om-mishra7

I'm a dynamic and detail-oriented full-stack developer with expertise in building captivating web and mobile experiences while scaling systems efficiently. Known for delivering robust applications and fostering growth through seamless integration of user-friendly interfaces with reliable backend architectures, I focus on enhancing both functionality and performance across platforms.

EDUCATION

- Bachelor of Computer Science (Full Stack Development), K.R. Mangalam University**
Degree to be obtained in June 2026

EXPERIENCE

Developer | The International Journal of Convergent Research | Gurugram, Haryana
August 2024 – January 2025

- Developed a website to digitize the journal publication process, reducing manual workloads by 40%.
- Implemented automated workflows for article submission, review, and publication, enhancing turnaround time by 30%.

PROJECTS

- CanteenPe** [\[GitHub\]](#)
An online food ordering app for KR Mangalam University that lets members order food, avoid queues, and pick up their orders when ready. The app offers real-time notifications and secure payment options. It is projected to reduce wait times by **35% during peak hours**.
- A*** [\[GitHub\]](#) | [Live](#)
A* is a platform for hosting coding contests and competitive programming challenges, offering real-time leaderboards, problem creation, and automated evaluation. It hosted 5+ competitions with 2,00+ participants and reduced evaluation time by 60%.
- CertSecure** [\[GitHub\]](#)
CertSecure is a comprehensive web application designed to provide organizations with a secure certification management system. Developed in collaboration with the **Government of Gujarat**, the platform supports blockchain-based verification, real-time document issuance, and automated audit trails, reducing manual verification time by 70%.

SKILLS

- Languages:** C, Java, Python, JavaScript
- Technologies:** MySQL, MongoDB, Redis, AWS, Git, React, Node.js, React Native, Fast API, Flask
- Core Skills:** Data Structures & Algorithms, Agile Development, DevOps, Version Control (Git)
- Soft Skills:** Strong Communication, Problem-Solving, Teamwork, Time Management, Adaptability

ACHIEVEMENTS

- Winner, Smart India Hackathon** – Recognized at the world's largest hackathon for innovative problem-solving.
- Top 10 finalist** at Vihaan (IIIT Delhi), HackKRMU, Code4Cause and many more hackathons.
